Dear Sir/ Ma

## **INVITATION LETTER FOR KARAMA CARE INC. CEO- AMINA SAKO**

I am writing to formally invite Karama care Inc. to Nigeria for app development purposes. Karama care, founded by Amina Sako, is a groundbreaking childcare technology company that is revolutionizing the childcare hiring process with a more personalized and community-driven approach.

We have been working closely with Karama care on the development of their app, which is now in its final stages and set to launch in the coming weeks. As part of this process, it is essential for Amina Sako to visit Nigeria to collaborate in person with our development team, oversee the final technical implementations, conduct necessary testing, and ensure a seamless rollout of the platform.

We kindly request that the necessary visa approvals be granted to Amina Sako for this business visit. Karama care is fully responsible for all travel and accommodation expenses, and they will comply with all Nigerian immigration regulations during their stay.

Please do not hesitate to reach out if you require any further information. We appreciate your support in facilitating this process and look forward to welcoming Karama care to Nigeria for this important phase of their app development.

Sincerely,

**Goodness Obaje**

Director, Mel-fi Technology Limited
